Website	https://threestartrust.com
Business Activities	Service, maintenance, manpower contracting and cleaning
Technical Disciplines	HVAC, Electrical, Piping, Civil, Mechanical

Our Technical Expertise

We provide installation, repair, preventive maintenance and project support across five core disciplines. The scope below shows the main work we undertake in each.

1. HVAC (Heating, Ventilation and Air Conditioning)

Complete air-conditioning and ventilation support, from new installation to year-round maintenance.

- Split, window, cassette and ducted AC installation
- Package unit and rooftop unit servicing
- Chiller, AHU and FCU maintenance and repair
- Cooling tower and chilled-water system support
- Ductwork fabrication, installation and cleaning
- Ventilation and exhaust fan systems
- Cold room and refrigeration servicing
- Gas charging, leak testing and compressor replacement
- Thermostat, control and BMS point support
- Planned preventive maintenance with service reports

2. Electrical Works

Safe and code-compliant electrical installation, repair and maintenance for buildings and facilities.

- Power, lighting and small-power installation
- Distribution boards, MDB and SMDB works
- Cable pulling, trays, conduits and trunking
- Fault finding, repair and rewiring
- Earthing and lightning protection support
- Motor control panels and starters
- Emergency lighting, exit signs and fixtures
- Generator and ATS connection support
- Fire alarm and CCTV cabling support
- Thermal checks, testing and periodic inspection

3. Piping and Plumbing

Reliable water, drainage and process piping for buildings, utilities and plant areas.

- Water supply and drainage pipe installation
- Sanitary fixtures, mixers and fittings
- Pump, tank and booster set connections
- Leak detection, repair and pipe replacement
- Chilled-water and hot-water pipework
- Fire-fighting pipework and sprinkler support
- Valve, strainer and flange replacement
- Pipe fabrication, welding and threading support
- Pressure testing and flushing
- Insulation and pipe supports

4. Civil Works

Building construction, repair and finishing works for new and existing facilities.

- Block work, plastering and screeding
- Tiling, flooring and skirting
- Interior and exterior painting
- Gypsum partitions and false ceilings
- Waterproofing and roof treatment
- Concrete repair, patching and crack sealing
- Doors, windows, aluminium and glass works
- Paving, kerbs, drains and site works
- Renovation and fit-out of offices and camps
- Demolition, cleaning and snag rectification

5. Mechanical Works

Installation, alignment and servicing of mechanical equipment and supporting structures.

- Pump, motor, fan and blower installation
- Equipment alignment, overhaul and replacement
- Steel fabrication, supports and platforms
- Welding, cutting and fitting works
- Compressor and air-system servicing
- Lifting, rigging and equipment shifting support
- Workshop and plant routine maintenance
- Lubrication and condition checks
- Shutdown and turnaround manpower support
- Troubleshooting and breakdown repair

Additional Services

Manpower Contracting

Supply of skilled, semi-skilled and general workers: technicians, electricians, plumbers, HVAC technicians, carpenters, painters, helpers and supervisors, on short-term or long-term contracts.

Cleaning Services

Commercial and residential cleaning, post-construction cleaning, deep cleaning and routine janitorial services, delivered by trained and supervised teams.

Facility Maintenance (AMC)

Annual maintenance contracts combining preventive and corrective maintenance, with scheduled visits and rapid response for breakdowns.

General Contracting Support

Coordinated multi-trade execution for fit-out, refurbishment and maintenance projects under a single point of contact.

Why Choose Three Star Trust

Multi-trade capability
One contractor for HVAC, electrical, piping, civil and mechanical needs: fewer vendors and simpler coordination.

Responsive service
Quick response to service calls and clear reporting on work completed.

Competitive, transparent pricing
Clear scope, itemised quotations and no hidden costs.

Skilled workforce
Qualified technicians and supervisors, ready to mobilise according to your requirement.

Safety and quality focus
Safe work practices and quality checks on every job.

Flexible engagement
Single jobs, projects, manpower supply or long-term maintenance contracts.
